EDUCATION

Indira Gandhi National Open University (IGNOU)

Master of Computer Applications (MCA)

New Delhi

Aug 2025 – Present

Jagan Institute of Management Studies (JIMS)

New Delhi

Bachelor of Computer Applications (BCA) — CGPA: 8.4

Aug 2022 – Jul 2025

EXPERIENCE

Graduate Apprentice

Jan 2026 – Present

DRDO - DIPAS

New Delhi

- Developed a full-stack Institutional Web Portal using React.js, Spring Boot, Spring Security (JWT), MySQL, and Redis with secure authentication and multi-role dashboards.
- Built an Inventory Management System (IMS) for defence products featuring lifecycle tracking, ToT, IPR, procurement, documentation, trial stakeholders, and inventory management.
- Implemented attendance management, employee approval workflows, notifications, project tracking, and organization modules.
- Designed responsive dashboards, secure REST APIs, role-based access control, and backend services for efficient enterprise data management.

Java Intern

Nov 2025 – Jan 2026

VaultofCodes

New Delhi

- Developed scalable backend applications using Java and Spring Boot following clean architecture principles.
- Designed REST APIs with request validation, business logic implementation, and efficient database integration.

PROJECTS

Zap URL – Distributed URL Shortener | *Spring Boot, PostgreSQL, Redis, Nginx, Docker*

- Built a distributed URL shortener using Spring Boot, PostgreSQL, Redis, and Nginx, supporting 1,000+ requests with low latency.
- Integrated Redis caching and Docker-based deployment with Nginx load balancing, reducing database queries by 70% and improving response time by 50%.

Cloud Share – Secure File Sharing Platform | *React.js, Spring Boot, Spring Security, MongoDB, Clerk*

- Developed a secure file-sharing platform with authentication, file upload/download, role-based access control, and RESTful APIs.
- Implemented Spring Security, Clerk Authentication, and MongoDB to deliver scalable and secure file management.

AI Help Desk Ticket Management System | *Spring Boot, Spring AI, OpenAI API, PostgreSQL, React*

- Built an AI-powered help desk system using Spring AI for intelligent ticket categorization, duplicate detection, and issue summarization.
- Developed REST APIs for ticket lifecycle management with a modular architecture for scalable enterprise applications.

TECHNICAL SKILLS

Languages: Java, SQL, HTML, CSS, JavaScript

Backend: Spring Boot, Spring Security, Spring AI, Spring Data JPA, Hibernate, REST APIs, Microservices

Frontend: React.js

Databases: MySQL, PostgreSQL, MongoDB, Redis

Developer Tools: Git, Docker

Core CS: Data Structures & Algorithms, OOP, Multi-threading

ACHIEVEMENTS

Competitive Programming

- Solved 500+ programming problems across LeetCode and other competitive programming platforms.
